

CSS – Flex

מצורף קוד HTML המכיל מבנה דף ללא עיצוב, הנראה בצורה הבאה:

Hypertext Markup Language (HTML) is the standard markup language for creating web pages and web applications. [Click here](#) to learn more about it.

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation of a document written in a markup language. [Click here](#) to learn more about it.

JavaScript is an object-oriented computer programming language commonly used to create interactive effects within web browsers. [Click here](#) to learn more about it.

עליכם להוסיף עיצוב CSS כך שהאתר יראה בערך בצורה הבאה, אך מבלי לגעת בקוד ה-html:

Hypertext Markup Language (HTML) is the standard markup language for creating web pages and web applications. [Click here](#) to learn more about it.

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation of a document written in a markup language. [Click here](#) to learn more about it.

JavaScript is an object-oriented computer programming language commonly used to create interactive effects within web browsers. [Click here](#) to learn more about it.

להלן קוד ה-HTML הנמצא בתוך ה-Body:

```
<div class="container">
  <p>
    Hypertext Markup Language (HTML) is the standard markup language for creating web pa
    ges and web applications.
    <a href="https://www.w3schools.com/html">Click here</a> to learn more about it.
  </p>
  <p>
    Cascading Style Sheets (CSS) is a style sheet language used for describing the prese
    ntation of a document written in a markup language.
    <a href="https://www.w3schools.com/css">Click here</a> to learn more about it.
  </p>
  <p>
    JavaScript is an object-
    oriented computer programming language commonly used to create interactive effects
    within web browsers.
    <a href="https://www.w3schools.com/js">Click here</a> to learn more about it.
  </p>
</div>
```

בהצלחה 😊
